entire impact of the steep increase in the oil prices to the consumers would have resulted in hardship to the common man, the retail selling prices of petrol, diesel, PDS Kerosene and domestic LPG have not been increased in tandem with the international oil prices. The Public Sector Oil Marketing Companies (OMCs) are incurring under-recoveries on domestic sale of sensitive petroleum products namely petrol, diesel, PDS kerosene and domestic LPG.

The gross under recoveries of OMCs on sale of these products, i.e. petrol, diesel, PDS Kerosene and domestic LPG during 2006-07 and April-Dec.'07 is as below:

(Rs. in Crore)

Product	2006-07	April-Dec'07
Petrol	2027	4564
Diesel	18776	20155
PDS Kerosene	17883	13441
Domestic LPG	10-701	9459
Total	49387	47619

(Gross under-recoveries without considering refinery discount, oil bonds and upstream assistance.)

A marginal increase in petrol and diesel prices by Rs. 2/litre and Re. 1/litre respectively was made with effect from 15.2.2008 which is actually in the nature of a resoration of retail prices of these products to the price level operating before February, 2007.

Despite the steep increases in international oil prices, the Government has not increased the prices of PDS Kerosene during the last six years. The price of Domestic LPG has remained unchanged during the last three years.

To reduce the burden on the consumer, Central Taxes on sensitive petroleum products have been consciously rationalized. The Central Government levies no taxes—customs or excise—on PDS Kerosene and domestic LPG. The customs duty on petrol and diesel has been reduced from 10% to 7.5 effective 14.6.2006 and the *ad-valorem* component of excise duty on petrol and diesel has been abolished with effect from 1.3.2008. Considering its widespread use for cooking purposes, LPG (domestic) has been placed under the 'declared goods' category, therby limiting State Government's levy of sale tax to 4%.
